

P SERIES

Our **BIG** pneumatics
have just gotten
BIGGER.

**45,000 lbs and higher
capacities are
now available!**

It's simple... bigger jobs need bigger forklifts. The P-Series is now available in larger capacities, but with the same 360-degree visibility, unmatched ergonomics, premium standard components and modern technology as the original.

SUPERIOR VISIBILITY & ERGONOMICS

- Two-stage, wide-view mast
- 360-degree visibility
- Adjustable air-ride seat
- Finger-tip hydraulic controls
- Tilt steering column
- Directional/gear-shift lever
- Dedicated inching pedal
- Low-profile design, easy entry/exit

RUGGED, DURABLE, POWERFUL

- Cummins 5.9L or 8.3L QSB turbocharges diesel engine
- Tier-compliant, reduced emissions and noise
- Dana 32,000 automatic transmission
- 12-plate modulation; smooth shifting
- AxleTech planetary drive axle
- Outboard, wet-disc brakes
- Heavy-duty steer axle

SERVICEABILITY & TECHNOLOGY

- Easy-access service points via flip-open steps and hood
- Multi-gauge for quick and easy hydraulic pressure readings; lines are pre-tapped
- **RemoteTech** vehicle management system monitors all vehicle functions and certain functions can be adjusted remotely. Automatically notifies personnel via email when issues arise.
