Now available in capacities  
from 45,000 lbs and higher

**Empty Container Handler**  
Available Fall 2007

**Ro-Ro pneumatic liftruck**  
Deliveries begin Summer 2007

**...OF HEAVY-DUTY  
EQUIPMENT FOR  
YOUR PORT FLEET.**

Brooklyn, New York-based Silent Hoist & Crane was one of the pioneers in material handling equipment for American ports, manufacturing products such as heavy-duty forklifts and container handlers. Their presence at New York ports and others along the coasts helped boost the nation's import/export business, as well as pave the way for other manufacturers and innovative equipment.

Silent Hoist & Crane is now Hoist Liftruck and we are poised to introduce a new generation of material handling equipment for port and intermodal applications more than 80 years after the original product line debuted.

The proven P-Series pneumatic liftruck is now available in higher capacities from 45,000 lbs to more than 100,000 lbs. The new Ro-Ro pneumatic is compact with an extremely low overall height to maneuver within tight areas of a ship. In Fall 2007, Hoist will introduce the new empty container handler line, which will feature the same ergonomics, technology, visibility and reliability as the P-Series.
